EDUCATION

Degree/Certificate	Institute/Board	CGPA/Percentage	Year
MS (Research)	Indian Institute of Technology Indore	10.0	2023-Present
B.Tech	IIT Bhubaneswar	9.08	2017-2021
Senior Secondary	TSBIE Board	93.7%	2017
Secondary	CBSE Board	10.0	2015

EXPERIENCE

- Dell Technologies** Feb 2021 - May 2021
Software Engineering Winter Intern Bangalore, India
 - Led the development of a 100% responsive Progressive Web App (PWA) using MERN, serving over 50k users, addressing over 70% of recurring technical issues faced by users and reducing VDI request processing time by 35%.
 - Developed RESTful APIs with CRUD functionality for logging and managing requests, streamlining administrative processes and enhancing efficiency by 40%.
 - Collaborated with the Desktop and Application Virtualization Global Team, to capture and analyse Web App performance and Automated virtual assistance resulting in a 30% reduction in support ticket volume and a 25% improvement in user satisfaction scores.
- Dell Technologies** May 2020 - Jul. 2020
Software Engineering Summer Intern Bangalore, India
 - Collaborated with the ITAM team & developed a forecasting tool for asset trend visualization and future predictions using deep learning.
 - Built an API using the AutoRegression algorithm, increasing prediction accuracy by 60%, which reduced over-procurement by 25% and improved resource allocation efficiency by 40%.
 - Helped streamline decision-making for the operations team, reducing manual forecasting efforts by 50.0%.
 - Assisted the SupportAssist team in enhancing system diagnostics and automated troubleshooting, improving issue detection speed by 20% & reducing manual intervention by 30%.
- Institute for Development & Research in Banking Technology** May 2019 - Jul. 2019
Summer Research Intern Hyderabad, India
 - Engineered a UI for banking professionals using AngularJS and Node.js. Enhanced security via SSO authentication & Improved performance by 30% through optimized data fetching & via code modularization and lazy loading.

PROJECTS

- Hybridized Attention based MIL for Hierarchical Carcinoma Classification (Ongoing)** Jan. 2024 - Present
Prof. Surya Prakash, IIT Indore GitHub
 - Developing a comprehensive deep learning framework using weakly supervised approach & iterative sampling, Multiple Instance Learning (MIL) to address high-resolution WSI processing for the classification of CPTAC Data.
 - Introduced Multi-scale Feature Aggregation to capture intricate morphological patterns.
 - Enhanced Performance by 0.5% relative to SOTA, reduced computational complexity by 95%.
- Highly-Generalizable Weakly Supervised Deep Convolution Network for Cancer Detection** Sep. 2023 - Dec. 2023
Prof. Aruna Tiwari, IIT Indore GitHub
 - Developed an end-to-end, highly-generalized weakly supervised deep learning method, improving classification accuracy by 2.0% in breast cancer malignancy detection using BreakHis dataset.
- Automated Sentiment Analysis Dashboard & Virtual Assistant for VDI Support** Feb. 2021 - May. 2021
Dr. Tapan Kumar Sahoo, Dr. Swati Vipsita, IIIT Bhubaneswar & Dell Technologies GitHub
 - Engineered a dashboard to automate sentiment analysis, & pre-processing of VDI support sessions. Trained a chatbot on ServiceNOW Incidents for automated virtual assistance, improving request handling efficiency by 40%.
- Mentorocity: Start-up & Mentor Community Platform (SIH 2020)** Jan 2020 - May. 2020
Smart India Hackathon, Department of IT and Biotechnology, Govt. of Karnataka GitHub
 - Developed a web-platform to connect start-ups with mentors and investors, market guidance & professional assistance by incorporating a hybrid deep learning-based recommendation system to increase mentor matching accuracy.

- **Opinion Mining based Conjoint Analysis based Recommender System** May. 2019 - Sept. 2020
Prof. V. Ravi, IDRBT Hyderabad GitHub
 – Automated product ranking with hybridized Conjoint Analysis & Sentiment Analysis on e-reviews, improving recommendation by 2.5%.
- **Anti – ragging Complaint System** Aug. 2018 - Nov. 2018
Dr. B. K. Mohanta, IIIT Bhubaneswar GitHub
 – Developed a web portal with an intuitive UI for students to report complaints to the Institute’s anti-ragging committee. Utilized Natural Language Processing (NLP) algorithms to prioritize cases, addressing over 85% of the complaints with higher accuracy, reducing resolution time by 40% and lowering repeated incidents by 30%.

SKILLS

- **Languages, Libraries & Toolkits** : C, C++, R, Python (Keras, Tensorflow, Pytorch, OpenCV, Albumentations, OpenSlide, Timm, HuggingFace), MySQL, Open Source
- **Web technologies & Tools**: HTML5, CSS3, React.JS, Typescript, Angular.JS, NodeJS, ExpressJS, Git
- **Soft Skills**: Strong Analytical skills, Public Speaking, Quick Learner, Academic writing, Project Management, Leadership, Team Player

KEY COURSES TAKEN

- **Courses**: Advanced Algorithms, Machine Learning, Pattern Recognition

POSITIONS OF RESPONSIBILITY

- **PG Coordinator - Student Academic Council, IIT Indore** May. 2024 - Present
Academic PG Support Coordinator Indore, India
 – As the PG Academic Student Coordinator, I promote student engagement with the academic community by organizing academic and extracurricular activities, fostering a vibrant campus environment.
- **CSE Research Symposium 2.0, IIT Indore** Feb. 2024 - Mar. 2024
Design Coordinator Indore, India
 – Led development of a central hub for event info, speaker profiles, and registration. Managed design, content curation, and brand consistency.

RESEARCH PUBLICATIONS

- **Fraudulent credit card transaction detection using soft computing techniques** 2021
INDONESIAN JOURNAL OF ELECTRICAL ENGINEERING & COMPUTER SCIENCE IIIT Bhubaneswar, India
 – Leveraged various Machine Learning Algorithms to successfully and efficiently detect fraudulent credit card transactions.
- **Opinion Mining-based Conjoint Analysis of Consumer Brands** 2020
INTERNATIONAL CONFERENCE ON SMART COMPUTING AND INFORMATICS IDRBT, Hyderabad, India
 – Developed a hybrid model combining sentiment analysis and conjoint analysis to evaluate consumer preferences and identify the best brand within a product category based on e-reviews and WoM.

ACHIEVEMENTS

- Represented school at National Level for a project under NCSC, a program of National Council for Science & Technology, Communication [NCSTC], Department of Science and Technology [DST], New Delhi, 2015.
- Received Scholarship and MHRD Appreciation, a letter of Appreciation by Mrs. Smriti Z. Irani (MHRD) in 2015 for Outstanding Academic performance in SSC Examinations, 2015.
- Ranked among the top 1% of state students in the National Standard Examination in Chemistry [NSEC], conducted by the Indian Association of Physics Teachers [IAPT], HBCSE, 2017.
- **University Rank Holder**: Secured Rank 1 among all students in CSE Department, IIIT Bhubaneswar in 2nd, 3rd, and 4th year of the B.Tech program at IIIT Bhubaneswar (2017-2021).
- **GB Merit Scholarship**: Received Governing Body Merit Scholarship for Outstanding performance in Academics and All-round Excellence in 2nd, 3rd, and 4th year of the B.Tech program at IIIT Bhubaneswar (2017-2021).
- **Python for Everybody Specialization**: Scored 97.9/100, mastering Python fundamentals, problem-solving, and critical thinking (Dr. Charles Severance, University of Michigan, Coursera).
- **C++ (Basic) Certificate - Skill Certification**: Scored 100/100, demonstrating proficiency in C++ fundamentals and problem-solving on HackerRank.
- Achieved a 5-star rating on HackerRank for Python & C++.
